- Modeling and Simulation

Compliance → Performance

* ABS Wavesight Products

What Informs Our Product Strategy?

Sustainability and Compliance	Product Experience and User Satisfaction	Connectivity	Disparate Data Sources
Decarbonization and Regulatory Pressures	Improved User Experience (UX) and User Interface (UI)	Proliferation of Constant High Bandwidth Connectivity	Push Toward Standardization and Integrations
Regulatory updates aligned to customer workflows	**Comprehensive updates to include mobile applications & documentation**	**Leverage more readily available connectivity options**	**Expanding data confidence into business adaptability opportunities**

Execution Tenets

Quality	Build What Matters	Focus

Relentless pursuit, starting with our processes

- WoW Rollout
- 80% Test Coverage
- Increased Documentation

Be transparent / build enough to solicit feedback

- Regulatory Cornerstone
- Published Roadmaps
- Feedback Loops

Iterative and phased delivery

- PRT Triage
- Supported Versions
- Release Cadence

2025 Roadmap

- Deliver complete features with higher quality and documentation for internal and external stakeholders
- Successfully launch NS-Web Crew & Payroll
- Complete rollout of disciplined agile and project management approach (WoW) with focused customer engagement

Winter 2025

NSE – eProc, Port Clearance Reports, Sire 2.0, Drydock, Mooring Mgmt., Crew Work/Rest Hours, MoC
eLogs – ODR, GMDSS Radio imp. for compliance IOPP validations on ORB I, etc.

NSE - Replication & Data Workflow Improv.
eLogs – BWM for MEPP82 and various Improvements on several logbooks

Spring 2025

Fall 2025

NSE –Address Business Critical **Workflows** with improved **user experience, performance and replication. Data** they see and take decisions on is accurate, complete and consistent **among all sites**
